Since the 1996 Census, the median age for Aboriginal and Torres Strait Islander people has been on the rise. Twenty years ago in 1996, the median age was 19 years. This increased to 22 years in 2011, and increased again to 24 years in the five years to 2016. The median age for non-Indigenous people was 43 years in 2016.

Aboriginal and Torres Strait Islander people continue to have a much younger age profile and structure than the non-Indigenous population. In 2016, just over half (51.3%) of Aboriginal and Torres Strait Islander people were aged under 25 years. In comparison, over one-quarter (28.7%) of non-Indigenous people were aged under 25.

The difference between the two populations was also clearly noticeable in the 65 years and over age group. The proportion of Aboriginal and Torres Strait Islander people aged 65 years and over was considerably smaller than for non-Indigenous people (6.2% compared to 19.7%).

## Household and Families

Obligation and connection to family plays an important role in Aboriginal and Torres Strait Islander culture. This support can be in the form of sharing accommodation.

Households in which at least one Aboriginal and/or Torres Strait Islander person lived were more likely than other households in 2016 to be family households (79.2% compared to 66.4%). They were also less likely to be a person living alone (16.2% compared with 30.4%).

In 2016, it was also more common for Aboriginal and Torres Strait Islander households to have more than one family living together (1.8%) than for other households (0.8%).

### HOUSEHOLD COMPOSITION, 2016(a)

	Households with Aboriginal and Torres Strait Islander person(s) %	Other Households %
One family	77.4	65.5
Multiple family	1.8	0.8
Lone person	16.2	30.4
Group	4.6	3.2

Aboriginal and Torres Strait Islander households, on average, were larger than non-Indigenous households (2.9 people, compared with an average of 2.3 people for other households).

## Language

In 2016, 0.3% of the Aboriginal and Torres Strait Islander population (or 65 people) spoke an Australian Indigenous language at home.

## Where Aboriginal and Torres Strait Islander people live, by Indigenous Area

In 2016, around one in four (27.3%) of Tasmania's Aboriginal and Torres Strait Islander population lived in the Greater Hobart Indigenous Area. Another 16.7% lived in Tasmania - West Coast and 13.1% in Central Coast - Devonport.

Almost one in ten (9.2%) people identified as being of Aboriginal and/or Torres Strait Islander origin in the Huon Valley area, while the corresponding proportion was 8.5% in Tasmania - West Coast.

## Income

Aboriginal and Torres Strait Islander people were less likely than non-Indigenous people to report an equivalised weekly household income of \$1,000 or more in 2016 (18.6% compared with 31.4%). Both these percentages have increased (from 12.4% and 23.9% respectively) since the 2011 Census.

## Education

Education is critical for overcoming disadvantage. The proportion of Aboriginal and Torres Strait Islander people aged 20 to 24 years who had completed Year 12 or its equivalent increased between 2011 and 2016, from 36.3% to 44.3%. Over the same period, the proportion for non-Indigenous people increased from 60.8% to 65.4%.

Aboriginal and Torres Strait Islander people aged 25 to 64 years were more likely than non-Indigenous people of the same age to have left school at Year 9 or below (14.7% compared with 7.6%). This is an improvement from 2011 for both groups (from 18.5% and 10.3% respectively).
